The Visionary Behind **Vardhini Vastu**

As the founder of Vardhini Vastu, **Raghavendra Hebbur** has spent over 18 years helping families, startups, and industrial clients harmonise their spaces. He bridges traditional Vedic wisdom with modern scientific diagnostics to deliver precise, non-demolition energy alignment.

Trained in classical Vastu Shastra with single-degree compass precision, he is also a certified Lecher Antenna practitioner for geopathic stress detection — serving clients across Bangalore, India, and internationally.

OUR FRAMEWORK

Three **Pillars** of Practice

No fear tactics, no expensive renovations — three scientific tenets guide every consultation.

- 1 Sanskrit Source Research**
Ongoing translation of the 12th-century treatise *Aparajitapṛcchā* — all techniques derived from classical Indian architectural texts, not folklore.
- 2 VIDS™ 16-Zone Overlay**
Proprietary Vastu Integral Diagnostic System — property mapped into 16 directional segments with single-degree compass precision.
- 3 100% Non-Demolition**
No walls broken — ever. Imbalances corrected using metal strips, colour therapy, yantras, and elemental energy modulators.

Instruments & Methodology

Certified bio-resonance and geo-detection tools for precise energy field measurement.

Lecher Antenna

Bio-resonance instrument that reads biological and environmental frequencies to pinpoint electromagnetic imbalances.

Universal Aura Scanner (UAS)

Identifies spatial energy blockages and verifies remedy compatibility before installation.

Geopathic Stress Rods

Detects Hartmann, Curry, and geological fault lines — a root cause of chronic health issues and business stagnation.

16-Zone Compass Analysis

Single-degree compass-accurate zoning — every directional segment scored against classical Vastu principles.
