PROPERTIES ALIGNED

The Three Pillars of Our Practice

We do not rely on fear tactics, generic remedies, or expensive renovations. Our consulting framework is structured around three core tenets:

1. Sanskrit Source Research

Ongoing research and translation of the 12th-century Sanskrit treatise **Aparajitapṛcchā**. This ensures all energy-balancing techniques are derived directly from classical Indian architecture texts.

2. VIDS™ 16-Zone Overlay

Our proprietary Vastu Integrated Diagnosis System maps your property into 16 discrete directional segments. We analyze your layout with single-degree compass precision.

3. 100% Non-Demolition

No breaking of walls, toilets, or doors. Imbalances are corrected using metal strips (copper, brass, iron), colors, shapes, and elemental energy modulators.

Scientific Diagnostics

We use certified diagnostic tools to measure electromagnetic, subtle auric, and geopathic energy fields.

Universal Aura Scanner

Measures the energetic aura of spaces. It identifies blockages, reads spatial frequencies, and tests compatibility of remedies before installation.

Lecher Antenna

A precise bio-resonance instrument that reads biological and environmental frequencies. It pinpoints electromagnetic imbalances.

Geopathic Stress Rods

Detects Hartmann, Curry, and geological fault lines running beneath the property, which can cause chronic fatigue and business failures.

Reiki Space Clearing

Integrates space-clearing protocols to eliminate stagnant, negative energetic footprints and re-energize the environment.

Professional Services

Residential Vastu

Perfect for apartments, villas, and independent homes. Harmonize relationships, health, and finances.

Commercial Vastu
